DVD and Blu-ray market

In 2010, German consumers spent EUR 1,668 billion on video software (all formats DVD, Blu-ray and online distribution - both retail and rental). With a slight growth of 0.85 per cent, the total video market volume stayed almost at the same level compared to EUR 1,654 billion in 2009. Growing sales of Blu-ray Discs (BD) and online distribution (EST and VoD/PpV) compensated for the slight losses on the DVD market.

There has been little change in the main distribution channels for sell-through.

The internet was by far the most popular distribution channel in 2010. Sales over the internet increased by 16 per cent compared to 2009.

DVD retail and rental

- In 2010, DVD was still the dominating format, representing 87.3 per cent (103.2 million units) of all volumes sold and 92 million units shipped to the rental market. Consumer spending on retail DVD decreased by 6 per cent to EUR 1,189 billion, compared to EUR 1,258 billion in 2009. In its fifth consecutive year, consumer spending on rental DVD declined to EUR 219 million (EUR 224 million in 2009).
- The average price for a DVD at consumer level went down slightly by 2 per cent, from EUR 11.80 to EUR 11.51. The average rental fee also dropped by 2 per cent from EUR 2.43 to EUR 2.38.
- The top DVD retail and rental title in 2010 was "Avatar".

Blu-ray retail and rental

- In 2010, 4.4 per cent of the German households were equipped with Blu-ray-players. 5.9 per cent households (more than 2 million households) owned a PS3 console. Declining hardware prices had a positive effect on the sales of Blu-ray hardware.

- With 12.0 million Blu-ray Discs sold in 2010, sales doubled compared to 6.2 million units sold in 2009. In 2010, spending on consumer retail reached EUR 193 million, an increase of 62 per cent compared with 2009.

In 2010, Blu-ray Discs achieved a market share in retail of 10.2 per cent in volume (13.7 per cent in value) and a 9 per cent share in volume (9.1 per cent in value) on the rental video market.

- The average price for a Blu-ray disc declined by 16 per cent to EUR 16.03. With only EUR 2.42 (EUR 2.61 in 2009), the rental fee dropped almost to the same level as the DVD rental fee in 2010.
- The Blu-ray has grown considerably. 9.7 million transactions were made in 2010 compared to 5.6 million transactions in 2009.

Online distribution

- In 2010, online video revenues reached EUR 22 million, nearly three times higher than in 2009 (EUR 8 million).
- 2.9 million EST units were sold in 2010, compared to 0.9 million units in 2009. EST represented a share of 2.4 per cent of all units (including DVD and BD) sold to consumers. This corresponded to a share of 1.6 per cent of the total retail turnover in 2010.

Video market: Germany

- In 2010, the average price for an EST title was EUR 7.62. The average price for a VoD title was EUR 3.50, an increase of 2 per cent (EUR 3.42 in 2009).
- In 2010, 6.1 million transactions were effected via streaming services compared with 3.8 million transactions in 2009. So far online distribution has not managed to compensate for the loss of the physical rental market.
- While video stores still dominate the physical rental market, VoD and PpV take a share of 8 per cent of the rental sales volume.
