## Spain key commentary

### Physical market

In 2021, the Spanish physical home entertainment market continued to contract, closing consumer spending at EUR 57.7 million – a decrease of 7.4% compared to 2020.

### Online distribution

The uptake of the Spanish online distribution market has been slow during the past couple of years, among other due to significant levels of digital piracy. A stronger approach to enforcement and legislative reforms has had a positive effect on the market and has contributed to increases of the subscription-based distribution models and pay-TV segments.

### Other relevant developments

Various initiatives have been launched to help Spanish consumers find legal services providing access to film and TV content, e.g. the online portal “Me siento de cine”, which has the support of the local film and AV industry as well as of the Spanish government.

Since March 2018, “La Pantalla Digital” - an online platform where Spanish audiences can search for legal offers for film, TV, sport events and music – has contributed to facilitating discoverability of legal content and services. This initiative is supported by the Spanish Ministry of Education, Culture and Sport and the Agorateka, the EU online legal content portal hosted by the EUIPO

JustWatch Spain is an additional search engine for Spanish audiences to identify providers of authorized access to films and TV programmes in Spain.
